**Curriculum Feedback by Alumnus**

It's my happiest and proud moment to share my feedback about a learner-centric institution. Sri Ramakrishna Mission Vidyalaya is the incomparable Educational Institution Which enlighten in the life of poorest students. We are satisfied with the course content and it is pertinent in our jobs.

The career-oriented syllabus was quite helpful for us to find out an employment soon after our graduation. We are satisfied with the infrastructure and lab facilities available in the college. This syllabus related to the industrial needed and it helps the students to get placement in a core company. The curriculum covers all the basics of automobile technology.

**SUGGESTIONS**

The curriculum needs to be incorporated with courses like electric vehicle, automotive safety system for the students to cope up with new advanced technologies in the industries.
