

SRI RAMAKRISHNA MISSION VIDYALAYA COLLEGE OF ARTS AND SCIENCE, COIMBATORE-20

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Stakeholders' consolidated feedback report on postgraduate curriculum (2020-2021)

The overall development, assessment of quality, integration of innovations, the quest for excellence, sustainability, efficient performance, the cross-section of administration, and attainment of the vision of any organization are effectively retained through stakeholders' feedback. In parallel, a focused feedback system creates an effective core trajectory to integrate and enrich the respective courses in a programme. The consolidated feedback analysis and report are submitted at the postgraduate level, 2020-2021, for curriculum upgrading and integrating current trends in MCA.

STUDENTS' FEEDBACK

5. Depth of the Course Content
26 responses

7. Applicability/ Relevance of curriculum to the real-life situations
26 responses

6. The extent of coverage of course (Syllabi)
26 responses

6. The extent of coverage of course (Syllabi)
26 responses

8. Field Project/ Internship/ Students Project/ is a road map to enrich basic research skills
26 responses

The student's feedback was collected on different parameters like depth of the course, the extent of syllabus coverage, the applicability of syllabus in real-time, internships, overall rating on curriculum, and their suggestions, etc., to improve the course content. The majority of the students (70%) strongly agreed that the content provided in the programme is depth enough in the curriculum. Students appreciated the effort made by the faculty members to covers the syllabi on average of 90%. The students agreed that the curriculum is in agreement with real-time situations. The inclination of project work paves the way for a research career. Finally, 90% of the students' positively responded to the overall rating of the curriculum as good.

Suggestions:

- Compulsory internship program for PG students
- Intensive interactive approaches such as quiz and presentations may be strengthened
- More attention on problem-solving methodology

TEACHERS FEEDBACK

The majority of the members, 100%, agreed that the POs, PSOs, and COs of the curriculum developed and implemented have relevance to the local, national, regional, and global developmental needs to a great extent. Around 66% of the members strongly approved that the courses having a focus on skill development. Further, it is observed that 58% of respondents agreed that 91-100% of the syllabus realized the stakeholders' expectations. The feedback revealed that 83% of them strongly agreed that the weightage provided to the students undertaking field projects/internships/projects/working models is relevant. Also, the majority of the members, 92%, approved that the Overall rating of the curriculum is excellent. In addition, curriculum refinement is listed in core topics to be added.

Suggestions:

- The work experience in Incubation Center may be encouraged for the advanced learners

5. Curriculum developed and implemented have relevance to the local, national, regional and global developmental needs which is reflected in programme outcomes (POs), programme specific outcomes (PSOs) and course outcomes (COs) of the programme.

12 responses

6. Average percentage of courses having focus on

12 responses

7. How much of the syllabus realized the stakeholders' expectations?

12 responses

8. Weightage provided to the student's undertaking field projects/internships/projects/working models.

12 responses

9. Overall rating of the curriculum

12 responses

Stakeholders' feedback and suggestions received for the academic year 2018-19

Students' feedback:

Suggestions: Nil

Teachers' Feedback:

Availability of books and materials

All the faculty members felt that the resources are adequately available for the existing programmes offered in the department.

Methods applied to Curriculum transaction

Most of the faculty members felt that the teaching methods used for curriculum transaction are adequate.

Preparedness for career placement

Most of the faculty members felt that the relevant skills required for industry readiness are adequately reflected in the curriculum.

Development of Skills of creativity and critical thinking

Most of the faculty members felt that the skills of creativity and critical thinking are existing in the curriculum.

Integration of Human and Ethical Values

Most of the faculty members felt that the human and ethical values are adequately present in the curriculum.

Theory and Practical

Proportionate weightage has been given to both theory and practical

Need for instilling flexibility in curriculum

Existing flexibility in the curriculum is sufficient.

Suggestions:

PG programme:

The following courses may be removed

- Windows Application Development –C#.NET
- Windows Application Development –C#.NET-Practical
- Operating System
- Operating System - Practical
- Elective: Data Warehousing and Mining
- Elective: Data Warehousing and Mining – Practical

The following new courses may be introduced

UG Programme:

- Web Technology (HTML5, Bootstrap, PHP & MySQL)
- Computer Networks
- Computer Network Lab
- Python Programming
- Python Programming Lab
- Elective: Advanced Networks

PG Programme:

- Network Programming using Python
- Network Programming using Python – Practical
- Data Science Using R
- Data Science Using R – Practical
- Elective: AngularJS and DevOps
- Elective: AngularJS and DevOps – Practical

The following courses may be revised and shifted from V semester to IV semester

- Enterprise Web Application Development
- Enterprise Web Application Development – Practical

The following courses may be shifted from IV semester to III Semester

- Developing web Application
- Developing web Application - Practical

The courses “Internet of Things” and “Internet of Things - practical” may be revised

Teachers' Feedback:

Sufficient books and relevant materials:

All the faculty members of the department felt that the sufficient books and relevant materials are available for curriculum design and development.

Methods applied to Curriculum transaction

Most of the faculty members felt that the teaching methods used for curriculum transaction are adequate.

Preparedness for career placement

Most of the faculty members felt that the relevant skills required for industry readiness are adequate in the curriculum.

Development of Skills of creativity and critical thinking

Most of the faculty members felt that the skills of creativity and critical thinking are adequately present in the curriculum.

Integration of Human and Ethical Values

Most of the faculty members felt that the integration of human and ethical values in the existing curriculum are sufficient.

Theory and Practical

Proportionate weightage has been given to both theory and practical.

Need for instilling flexibility in curriculum

Existing flexibility in the curriculum is sufficient.

Suggestions

- The course “Object Oriented Programming with C++” may be revised for UG programme.
- The syllabi of NME courses 1.Information Security and 2. Data Science and Big Data Analytics Lab may be revised.
- The new course “Programming in C” may be introduced in the place of “Data Structure using C” for PGDCA programme.
- Outcome Based Education (OBE) may be introduced.

Stakeholders' feedback and suggestions received for the academic year 2016-17

Students' Feedback:

Suggestions:

- Add-On Course/Value Added Course may be provided for UG programme.

Teachers' Feedback:

Availability of books and materials

All the faculty members felt that the resources are adequately available for the existing programmes offered in the department.

Methods applied to Curriculum transaction

Most of the faculty members felt that the teaching methods used for curriculum transaction are adequate.

Preparedness for career placement

Most of the faculty members felt that the relevant skills required for industry readiness are adequately reflected in the curriculum.

Development of Skills of creativity and critical thinking

Most of the faculty members felt that the skills of creativity and critical thinking are adequately present in the curriculum.

Integration of Human and Ethical Values

56% of the faculty members felt that the human and ethical values in the existing curriculum is sufficient. More scope is to be identified for further enrichment.

Theory and Practical

Proportionate weightage has been given to both theory and practical.

Need for instilling flexibility in curriculum

Existing flexibility in the curriculum is sufficient.

Suggestions for Curriculum Enrichment:

Most of the faculty members recommended to introduce more value-added courses to enhance employability for UG programme.

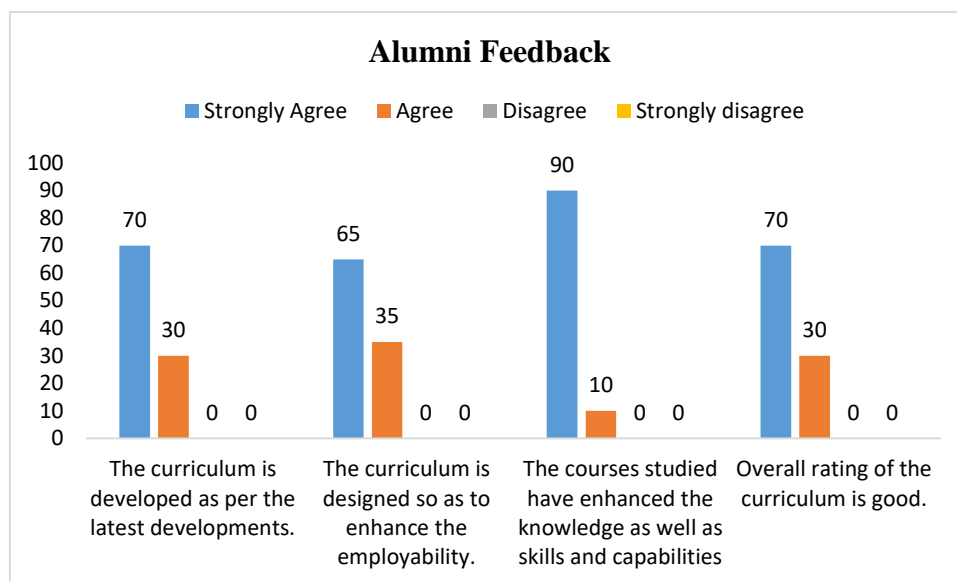

- The course “Multimedia” may be revised.

Faculty exchange programme may be arranged.

Industry readiness programmes may be considered for PG programme

- The course “Internet Of Things” may be introduced.
- The course “Developing Windows Applications Development C#.NET” may be revised and it is suggested to rename the course as “Developing Web Applications “
- The course “Open Source Application Development-PHP and MYSQL” may be revised and it is suggested to rename the course as “Enterprise Web Application Development “
- The course “Open Source Application Development -Advanced Java-I” may be revised
- The course “Open Source Application Development with Android / Content Management ” may be revised .

Stakeholders' feedback and suggestions received for the academic year 2015-16

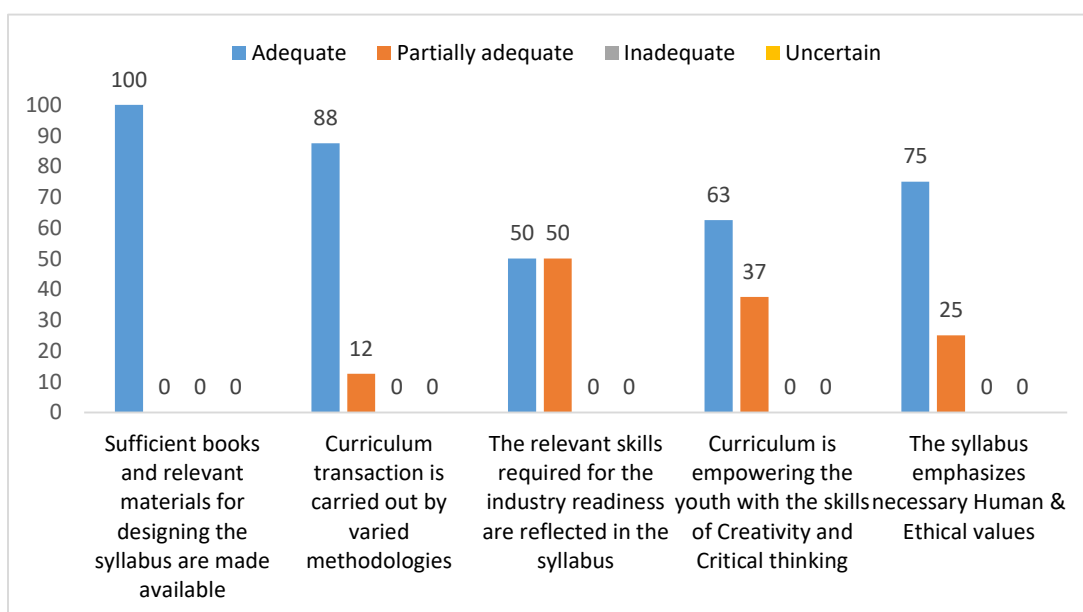

Students' feedback:

Suggestions:

- Internship programme may be organised.
- More practical courses may be introduced.
- Extra Lab hours may be provided.
- Soft skill programme may be provided.
- Time duration may be enhanced for project work.

Teachers' Feedback:

Availability of books and materials

All the faculty members felt that the resources are adequately available for the existing programmes offered in the department.

Methods applied to Curriculum transaction

Most of the faculty members felt that the teaching methods used for curriculum transaction are adequate.

Preparedness for career placement

50% of the faculty members felt that the relevant skills required for industry readiness are adequately reflected in the curriculum. Others suggested to enrich the curriculum content to meet the industrial requirements.

Development of Skills of creativity and critical thinking

63% of the faculty members felt that the skills of creativity and critical thinking are embedded in the curriculum. Some faculty members suggested to inculcate more skill oriented content.

Integration of Human and Ethical Values

Most of the faculty members felt that the values and ethics are adequately available in the curriculum.

Theory and Practical

Proportionate weightage has been given to both theory and practical.

Need for instilling flexibility in curriculum

Existing flexibility in the curriculum is sufficient.

Suggestions

Revision may be carried out in the following courses in,

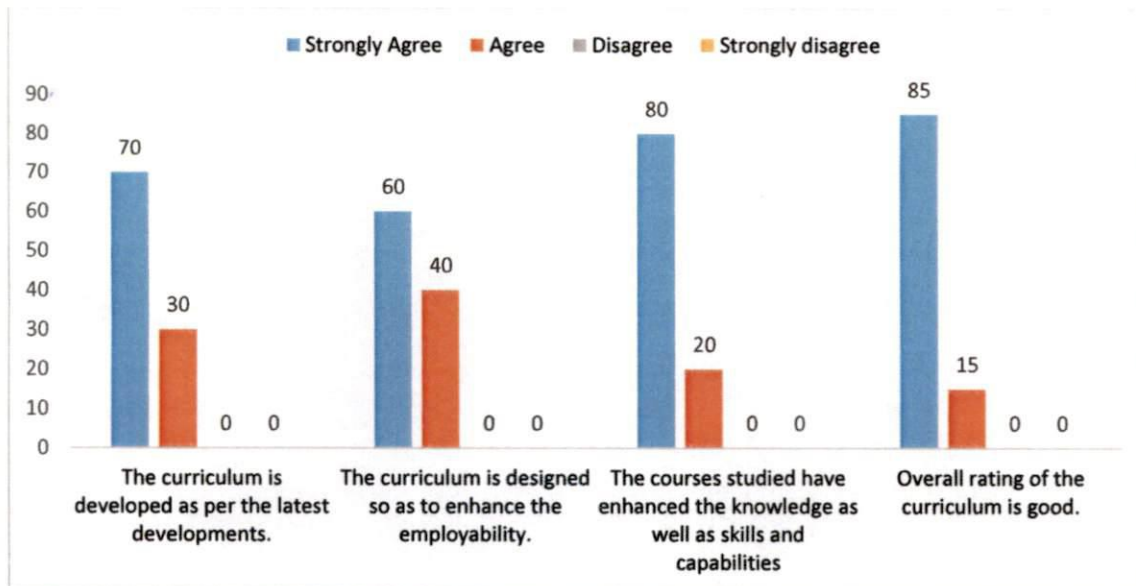

UG Programme

- Data Structures using C++
- Mobile Computing and Android Programming
- Visual Programming
- Web Technology
- Cyber Security

PG Programme

- Open Source Application Development-Advanced Java-I
- Open Source Application Development-Advanced Java-II
- Open Source Application Development-PHP & MySQL
- Windows Application Development-C#.NET

Alumni Feedback:

Suggestions

- Internship training for UG & PG students is necessary.
- Duration for project work may be increased from six months to one year for UG students.
- Industrial training may be organized for final year students.
