

Sri Ramakrishna Mission Vidyalaya College of Arts and Science,
Coimbatore - 641 020

Policy for Green Campus

Energy Conservation

- CFLs and LED bulbs are predominantly used in the College campus.
- The CRT computer monitors are replaced with LED monitors.

Use of renewable energy

- The institution has established solar power generation plant with a capacity of 15 kW. The power generated is synchronized with the Grid provided to the institution.
- Bio-gas plant has been installed and successfully utilized for the hostel.

Water harvesting

- Two ponds are created and exclusively made available for water harvesting.

Check Dam construction

- Check dams are available.

Efforts for carbon neutrality

- Campus is surrounded by many trees and maintained eco-friendly.

Plantation

- The Social and Environment Sensitization Club with the support of their volunteers maintain the ambience of the campus.
- In 'Sundarvan' area, the trees are maintained by the NCC cadets.
- To make the ambience green a reality 'one family one tree' theme is adopted in our campus by the NSS wing and maintained by them.

Hazardous waste management

- Hazardous materials like plastics are collected and handed over to the local panchayat for safe disposal.
- As a part of 'Swachh Bharath' programme, Periyanaickenpalayam Police station area and either sides of Coimbatore-Mettupalyam highway (NH-67) adjacent to the campus are cleaned.

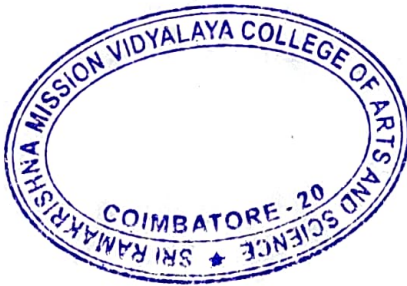

- As a part of 'Swachh Vidyalaya' programme, campus cleaning is undertaken periodically by the students.

E-waste management

- The system of up-gradation of the electronic equipments is adopted in order to minimize the e-waste.

Any other

- The Social and Environment Sensitization Club of the college has been playing a vital role in sensitizing the students and the community towards environmental protection. The club organizes the programmes like street plays, meetings, photo exhibitions, documentary film shows, discussions and competitions to create awareness on eco-consciousness among the public.
- The student volunteers participated in the rally organized by Periyanaikenpalayam town Panchayat, to create awareness on the importance of rain water harvesting, awareness on the ill-effects of plastics and eco-consciousness.
- To create awareness on eco-consciousness among the students, the institution organized seminars on 'Environmental Studies' and 'Save Environs and Save Life'.
